

CONTENTS

<i>M. Štastný, K. Melka</i> : PREFACE	7
PRESENTED CONTRIBUTIONS	9-10
<i>K. Melka</i> : OPENING ADDRESS TO THE XVII th CONFERENCE ON CLAY MINERALOGY AND PETROLOGY	11
INVITED LECTURES (ABSTRACTS)	
<i>D.C. Bain</i> : DYNAMIC SOIL CLAYS	15
<i>C. Gomes</i> : THE PRELUDE OF PORCELAIN IN PORTUGAL	17
ORIGINAL LECTURES (FULL PAPERS)	
<i>I. Chaari, E. Fakhfakh, M. Hachani, R. Alouani, M. Medhioub, F. Kooli, F. Jamoussi</i> : CHARACTERIZATION AND POTENTIAL APPLICATION OF PLIOCENE CLAYS FROM MENZEL TEMIME REGION (NORTHEAST OF TUNISIA) FOR BRICK AND FAIENCE CERAMICS FABRICATION	21-29
<i>E. Fakhfakh, I. Chaari, M. Medhioub, F. Rocha, C. Gomes, J. Marques, J. Coroado, A.L. Galindo, F. Kooli, F. Zargouni, F. Jamoussi</i> : TUNISIAN SMECTITIC CLAYS AS RAW MATERIALS FOR THE PRODUCTION OF LIGHTWEIGHT AGGREGATES	31-37
<i>E. Fakhfakh, I. Chakroun, I. Chaari, M. Medhioub, F. Rocha, C. Gomes, A.L. Galindo, F. Kooli, F. Zargouni, F. Jamoussi</i> : CHEMICAL AND PHYSICAL CHARACTERIZATION OF SOME TUNISIAN SMECTITES FOR HUMAN HEALING USE	39-45
<i>M.G. Khrumchenkov, E.M. Khrumchenkov, N.B. Pleshchinskii</i> : PHYSICO-CHEMICAL MECHANICS OF CLAY SWELLING	47-52
<i>J. Konta</i> : CLAY MINERALS INCLUDING RELATED PHYLLOSILICATES: INTERDISCIPLINARY RESEARCH AND INWARD INTEGRATION	53-68
<i>F. Kresta</i> : EXPANSIVE CLAYS IN TRACK SUBGRADE IN DEEP CUT (SECTION TŘEBOVICE - RUDOLTICE, CZECH REPUBLIC)	69-77
<i>H. Kroupová, K. Štamberg</i> : EXPERIMENTAL STUDY AND MATHEMATICAL MODELLING OF Cs (I) AND Sr (II) SORPTION ON BENTONITE AS BARRIER MATERIAL IN DEEP GEOLOGICAL REPOSITORY	79-86
<i>G.A. Kudaikulova, H. Strauss, V. Koeckritz</i> : THE KAZAKHSTAN CLAY FOR DRILLING MUDS	87-93
<i>R.A. Kühnel, S.J. Van der Gaast</i> : XRD OF WET SPECIMEN – SOURCE OF INTERESTING INFORMATION	95-104
<i>J. Mališ, M. Křístková</i> : STRUCTURE OF VERMICULITE MODIFIED BY ORGANIC MOLECULES. . .	105-111
<i>V.V. Mank, L.N. Melnyk</i> : USE OF CLAY MINERALS FOR ADSORPTIVE CLEARING OF AQUEOUS-ALCOHOLIC SOLUTIONS	113-117
<i>K. Melka, J. Ulrych, R. Mikuláš</i> : HYDROBIOTITE FROM THE DĚTAŇ OLIGOCENE TUFFS (DOUPOVSKÉ HORY Mts.)	119-129
<i>H.H. Murray</i> : CLAY SORBENTS: THE MINERALOGY, PROCESSING AND APPLICATIONS	131-138
<i>J.K. Novák, K. Melka, J. Ulrych, Z. Řanda</i> : PHONOLITE WEATHERING PROFILES AT MARIÁNSKÁ HORA HILL, ČESKÉ STŘEDOHOŘÍ Mts., AND SORPTION PROPERTIES OF CLAY RESIDUES. . .	139-153
<i>M. Rebelo, P. Gonçalves, E. Silva, F. Rocha</i> : SOME PORTUGUESE CLAY SEDIMENTS USED AS RAW MATERIALS FOR CURATIVE CLAY PASTES: A STUDY OF PHYSICAL AND TECHNOLOGICAL PROPERTIES	155-159
<i>J. Šrámek</i> : CALCITE CONCRETIONS IN TURONIAN MARLY SILICITES, CENTRAL BOHEMIA . . .	161-165
<i>L. Vaculíková, E. Plevová</i> : IDENTIFICATION OF CLAY MINERALS AND MICAS IN SEDIMENTARY ROCKS	167-175
<i>A. Wiewióra, J. Drapala, J.L. Pérez-Rodríguez, L.A. Pérez-Maqueda, D. Grabska</i> : EFFECT OF SONICATION ON STRUCTURE AND PARTICLES DIVISION OF PYROPHYLLITES	177-188
