

CONTENTS

Acta Geodyn. Geomater., Vol. 22, No. 3 (219), 2025

<i>X. Wang, L. Zhang, G. Geng, C. Qin, D. Ran, F. Wang and H. Wang:</i> CHARACTERIZING THE SEASONAL LOADING DEFORMATION IN NORTH CHINA USING GNSS AND SURFACE LOADING MODELS.	291–302
<i>E. Karakaya and İ. İnce:</i> PREDICTION OF UNIAXIAL COMPRESSIVE STRENGTH OF ROCKS BY NON-DESTRUCTIVE TESTING VIA DIFFERENT MACHINE LEARNING ALGORITHMS.	303–316
<i>C. Benammar, S. Feia, A. Khechai, S. Denine and N. Della:</i> GRAIN BREAKAGE IN SHEAR BANDS AND ITS EFFECT ON THE PERMEABILITY DECREASE OF GRANULAR MATERIAL SPECIMENS DURING TRIAXIAL LOADING.	317–332
<i>F. N. Rosli, N. M. Muztaza, N. A. Ismail, N. Rosli, N. Rahman, R. Saad and A. Rosli:</i> INTERCONNECTION OF ELECTRICAL RESISTIVITY TOMOGRAPHY AND BOREHOLE RECORDS FOR SUBSURFACE LITHOLOGIES AND GEOLOGICAL STRUCTURES STUDY.	333–345
<i>R. Khalil, A. F. Turki and M. Y. A. Khan:</i> EVALUATION OF THE DEPOSITIONAL ENVIRONMENTS AND THE SPATIAL VARIATIONS OF GRAIN SIZE CHARACTERISTICS OF RAMGANGA RIVER SEDIMENTS, INDIA.	347–366
<i>N. A. S. M. Saharom, N. F. H. Azmi, N. M. Muztaza, I. A. Abir, F. N. Rosli, T. Y. Jia, A. A. Rahman, N. Rahman, N. Rosli, R. Saad, A. Rosli, Y. Bashir, O. C. Yong and S. M. H. M. Sharoni:</i> INVESTIGATION OF SEDIMENTARY OUTCROPS USING GEOPHYSICAL METHODS IN LANGKAWI, KEDAH, MALAYSIA.	367–380
<i>F. Trepil, N. M. Muztaza, I. A. Abir, M. A. Saleem and K. A. Khalf:</i> THE INTERPRETATION OF EIGEN-6C4 SATELLITE GRAVITY DATA DETECTS THE MAJOR STRUCTURAL FAULTS AND BASEMENT DEPTH IN THE SOUTHERN PART OF JABAL NAFUSAH, NORTHWESTERN LIBYA.	381–392
<i>X. Yuan, Y. Zhou, S. Zhou and F. Wang:</i> AGRICULTURAL AND ENERGY SECTORS DOMINATE IRAN'S WATER CRISIS: A GRACE-GLDAS QUANTIFICATION (2002–2023).	393–404
<i>Ç. Aldı:</i> DETERMINATION OF THE EFFECT OF ROCK ABRASIVENESS ON GRINDABILITY USING THREE DIFFERENT EXPERIMENTAL METHODS.	405–412
<i>Y.C. Tang, Q.R.Wang, Z.Y. Xing and Y. Xiao:</i> A DISSOLUTION MECHANICS MODEL OF LIMESTONE BASED ON HOEK-BROWN CRITERION.	413–426
<i>M. Ezziane, S. Denine, B. A. Baghdir and N. Della:</i> THE IMPACT OF FINES CONTENT ON THE SHEAR STRENGTH CHARACTERISTICS OF TUFF.	427–442
<i>Y. Zhu, N. Qian, H. Lin, Y. Cao, Y. Feng, Y. Huan and S. Gong:</i> DOWNWARD CONTINUATION OF AIRBORNE GRAVITY DATA BASED ON SPARSE SPHERICAL RADIAL BASIS FUNCTION.	443–452
