

## Curriculum Vitae

**VLADIMIR E.YUDIN, H-index = 17. Number of citations =622**

Institute of Macromolecular Compounds, Russian Academy of Sciences  
199004 St.Petersburg, V.O. Bolshoy pr., 31.  
e-mail: [yudin@hq.macro.ru](mailto:yudin@hq.macro.ru)  
phone: 7-812-3235065; fax: 7-812-3286869  
[www.macro.ru](http://www.macro.ru)

### **(1) Education**

Institution and Location	Degree and Field of Study	Date
a) Institute of Macromolecular Compounds RAS, St.Petersburg	Doctor of Science, Professor (physics of polymers)	2000
b) Graduate school at the Institute of Macromolecular Compounds RAS, St.Petersburg	Ph.D in Physics and Mathematics (physics and mechanics of polymers)	1980-1984
c) Moscow Institute of Physics and Technology	Master of Science (molecular and chem. physics)	1972-1978

### **(2) Professional Work Experience:**

1980-1984 - experimental work and writing of the dissertation under the name: "Mechanism of Fracture of Fiber Reinforced Composites Based on Thermally Stable Type of Matrices". In 1985 this dissertation was successfully approved.

1986-1990 - investigation of main features of viscoelastic behavior of thermosetting and thermoplastic polyimide matrices in composites and influence of dissipative properties of the matrix and fiber-matrix interface on the process of failure of fiber's composites (acoustic emission and NDE methods).

1995-1996 - Grant "Development of New Flame-Resistant Ultra-Lightweight Composites Based on IPO Polyimide Resin" from the William and Mary Greve Foundation (USA)

1996 - Grant J9E100 "Localization of Acoustic Emission in the Fracture of Fiber Composites" from the International Science Foundation and Russian Government.

2000 - Doctor of Science in polymer physics.

2005 and 2007 – Grants from PPG INDUSTRIES, INC. (USA)

2014 -2018 - Grant from Russian Science Foundation for organization the laboratory "Polymer materials for tissue engineering and transplantation" at St.Petersburg Polytechnical University

**Actual position - Head of the laboratory "Mechanics of Polymer and Composite Materials" at the Institute of Macromolecular Compounds RAS.**

17 research scientists work at the laboratory this time.

**Professor at the St.Petersburg Polytechnical University.**

Course of lectures "Polymer Materials for medical application" since 2004 year up to now.

### **(3) Research Areas:**

- \* Materials science – experiment and theory
- \* Polymer processing and rheology
- \* Viscoelastic properties of polymer composite
- \* Processing of composite materials
- \* Fibers reinforced composites
- \* Organic-inorganic nanocomposites
- \* Polymer matrices for biomedicine

### **List of Main Publications (1999-2014):**

1. I.P.Dobrovolskay, **V.E.Yudin**, P.V.Popryadukhin, E.M.Ivan'kova, A.S.Shabunin, I.A.Kasatkin, P.Morganti. Effect of chitin nanofibrils on electrospinning of chitosan-based composite nanofibers // Carbohydrate Polymers 194 (2018) 260–266.
2. P.V. Popryadukhin, G.I.Popov, I.P. Dobrovolskaya, **V.E. Yudin**, V.N. Vavilov, G.Yu. Yukina, E.M. Ivan'kova, I.O. Lebedeva. Vascular prostheses based on nanofibers from aliphatic copolyamide. Cardiovascular Engineering and Technology, Vol. 7, No. 1, March 2016, 78–86.
3. I.P. Dobrovolskaya, P.V. Popryadukhin, V.E. Yudin, E.M. Ivan'kova, V.Yu. Elokhovskiy, Z. Weishauptova, K. Balik. Structure and properties of porous films based on aliphatic copolyamide developed for cellular technologies. Journal of Materials Science: Materials in Medicine. 2015, Vol. 26, No. 1, 26:46
